Provider Profile

Information provided by the provider describing their agency:

Alternative Enrichment at Bel Spa is located in Eastford CT, we are within 15 miles of the greater Willimantic, Mansfield and Putnam areas. Our program currently has an enrollment of 9 individuals with a proposed total of 10-12. Our facility is handicapped accessible to all areas including a sheltered outside area. We base our monthly activity schedule on an educationally based theme inclusive of community outings as well as established volunteer venues. Our facility promotes creativity and wellness as well as on-going life skills. We are adequately staffed with well trained people. We have on-site nursing supports. We may be able to provide transportation.

Provider Profile

Information provided by the provider describing their agency:

Alternative Services -Connecticut, Inc. (ASI-CT) provides services to children and adults with developmental disabilities and/or serious mental illness. Our areas of expertise include behaviorally and/or medically challenged individuals as well as dual diagnosed individuals. We offer various supports including 24-hour residential support, individualized home support as well as employment and individual day supports. Individualized home supports include in-home family supports, in-home respite, as well as supporting individuals to live in their own apartments/homes. Most of the people we serve have difficulty with the demands of daily living. Supported individuals are taught a variety of skills necessary for increased personal independence, growth, and dignity. Basic self-care skills, social skills, domestic skills, responsibility and self-direction are a few of the possible focus areas. Individuals have various opportunities to participate in community activities, develop friendships, and visit friends and families. The individual and family are encouraged to participate in the development of the individual's support services by participating in the development of their individual service plan and attending and participating in plan reviews.

In order to ensure improvement in the provision of individualized support, we have implemented several surveys including a Consumer Survey, a Family Satisfaction Survey, and a Funder Survey. These surveys offer the individual and the family additional opportunities to become involved in the development of support services and support the agency in providing continuous quality improvement in services. The people we serve, and their loved ones, consistently indicate very high satisfaction with our services. We are grateful for their support.....and we work to earn their trust everyday.

The mission of ASI-CT is to help open doors to a world of opportunities by providing innovative support services as determined by the individual.
